What2Learn

Superpowered learning and revision

Gaming and education combined

What2Learn is an online learning resource where students learn and revise key content through powerful educational games. Using **What2Learn** is a great way to:

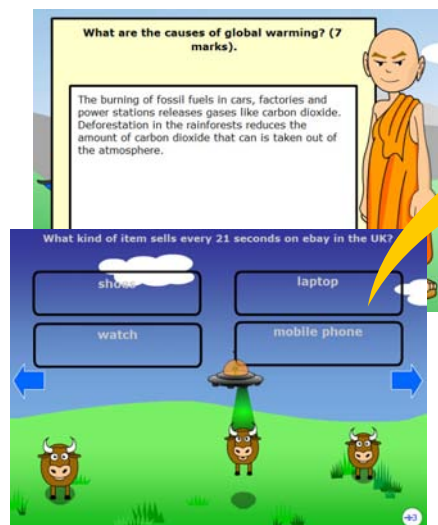

- » add fun and diversity to lessons and homework
- » boost examination results and enhance ICT use
- » reach students who are out of school – ideal for study centres too
- » reduce time spent marking by using the automatic marking features.

Access to most learning games and a section of the game generator tool is free of charge, but to get the most out of this powerful system, you can take advantage of the new Premium Service – see overleaf for details.

A new way of learning

What2Learn is enjoying a rapid take-up in schools. With thousands of games available and more being added, it can:

- » incentivise students to revise effectively
- » successfully engage even very disenchanted youngsters
- » keep users' attention using in-built rewards
- » generate customised games quickly and easily with content provided by the teacher
- » assist teachers in meeting the individual needs of learners
- » provide challenges for the most able.

Testimonials

I would like to trial using your website after having a recommendation from the University of Brighton. I would like a year 9 class of 30 added to the site so I can set them homework activities etc. and monitor how they are getting on.

Laura Hilde
Ratton School, Eastbourne

My colleague has used this very successfully with 2 of his literacy classes and I'd like to do the same.

Christine Watson
Rainhill High School, Prescot

A games site that teachers will be pleased with!

CHSB VLE

I love What2Learn. They make revision worth doing!

What2Learn and Pearson Publishing

– helping to raise attainment across the country

Premium service now available

Through a new partnership with Pearson Publishing, the new and much enhanced **What2Learn Premium Service** is now available at just £1 per pupil per year. Benefits for premium users include:

- » automatic marking and recording of results
- » extensive reporting tools to help monitor student progress by individual, class and teacher
- » a learning game creator now with 20 different activity types – great for students and teachers alike
- » over 10 000 ready-made games organised by subject and topic
- » automated whole class registration
- » easy administration of groups, topics and setting of work.

Extra support and opportunities

There are also printable resources to back up the use of the games and students can be encouraged to build their own games to help reinforce their knowledge and understanding. They can then play and review one another's creations – providing excellent learning in the process.

Prices and ordering

To benefit from the powerful additional benefits of the **Premium Service** is simple and surprisingly inexpensive. The cost is just £1 per pupil per year (with a minimum of 50 pupils). To order, simply complete and return the form below or email what2learn@pearson.co.uk. You will be sent your class sets of logins and you and your students will be ready to go.

Broad range of subjects

What2Learn has games for almost all subjects, including English, maths, science, geography, history, ICT, French, Spanish, RE, design and technology, drama, music and citizenship. And if you don't see the content you want, you can use the simple game generator to create your own game in minutes.
